FRESNO, CALIFORNIA, TUESDAY, JULY 20, 1897.

PRICE -5 CENTS.

The Tariff Bill Under Fire but Twelve Hours.

WILL GO TO THE SENATE TODAY

WILL GO TO THE SENATE TODAY

WASHINGTON, July 20.—The conference report on the tariff bill was adopted by the house shortly after midnight by a vote of 185 to 185 and at anon today the report will go to the senate for section there. This eclipses all previous function to the tariff bill was adopted by the house shortly after midnight by a vote of 185 to 185 and at anon today the report will go to the senate for section there. This eclipses all previous function the tariff bill was adopted by the house shortly after midnight by a vote of 185 to 185 and at anon today the report will go to the senate for section there. This eclipses all previous function there were mose allowed the report will go to the senate for section there. This eclipses all previous function the section was unaspected to the content was considered the previous function. The result was accomplished after twelve hours continuous debeta. But two speaches were made by the Republicans, one by Mr. Diplicy, in opening the debate, and by Mr. Payre of New York in closing it. The Democratal content of the debate occurred when are the main asserted. In all, ten Democratal after speaker, but their hombardment of the Republicans of the report will go to the sense to the content of the report will go to the sense to report the sense to the content of the report will go to the sense to report the content of the report will go to the sense to report the tense of the content of the report will go to the sense to report the tense of the content of the report to demonstrate the proper to the report to demonstrate to the report to the report to demonstrate to the report to the report to demonstrate to the report to demonstrate to t

coorgis, Issuny of Deisware, Schower, Schowers of Oltic, Perry of Kentucky, Bailey of Texas and McMillin of Tennetsee being the speakers.

The sugar schedule was the main point of assault, but the most interesting feature of the delasts occurred when Mr. Bailey and Mr. McMillin, the two rival Democratic loaders, crossed swords on the question of orthodoxy of the free raw material doctrins, the former opposing and the latter championing it.

The galleries were crowded up to the time the vote was taken, many distinguished people being present. Among them were many sensation, many members of the cabinets and a few members of the delahinatic corps. Every Rupublican in the hones who was political voted for the report. The Democrate with five exceptious wheel against the report. The Dancerate with five exceptious wheel against the report. The Dancerate with five exceptious wheel against the report. The Dancerate with five exceptious wheel against the report. The Dancerate with five exceptious wheel against the report. The Dancerate with five exceptious wheel against and Thank, Processard of Louisiana, Meyer of Texas. Processard of Louisiana and Michary of Texas.

The Populists who voted against the report were as follows: Baker, Barrow, Hontin, Fowler, Jott, Lowie, Marshall, Martin, Paters, Singson, Strond and Vincont. Four did not vote, Howard, Stoley, Stark and Sattlerland. The other Populists were absent. An analysis of the vote shows that 180 Republicans and 5 Democrate and 12 Papilitate voted against it.

Washinstron, July 19.—The floor of the house presented an animated apparance long before the speaker rapped that body to order today. Mannhard stond and the general deficiency appropriation bill was adopted.

This out of the way, Mr. Dingley strong, and holding sloft the report und and great mass of papers, he said, in calm tones?

in great mass or appear, and the conest the conference report on the following bill." Salvos of applance from the Republican std greatest this amountement. An effort was made to secure an agreement for a yoth. Mr. Bally said the minority report-desired three days, but knowing they could not obtain them, would be satisfied with two.

Mr. Dingley refused to agree to this, saying "Talk at this time is very expensive. It ensist the tressury \$100,000 a day."

a country round of applause.

Mr. Dingley, in raply, nearly that never before in legislative history had a tariff bill been in conference so brief a time. The McKirley bill had been in conference two weeks, 'and our riends on the other than the state of the beautiful that the been in conference is weeks without reaching an agreement."

"The traphs in 1894." retorted Mr. 'The traphs in 1894 were

g an agreement."
"The trauble in 1894," retorted Mr.
illey, "was that we were trying to run
to Democratic party with a lot of mugunus in commant." Laughter and
oplause on the Democratic side.]
Mr. Dingley continued his efforts to
x a time for a vote, the Republicans
uring the discussion crying "vote, vote,
tota."

suggess that we wait until sugar k goes up a little higher," said Mr. ey sarcastically. "It has gone up a share since the agreement was

out by the committee.

Concerning the angar schedule, Mr.
Dingley read from the official statement,
adding brief comments. By the new
arrangement about \$6,000,000 increase
of revenue would be realized.

When Mr. Dingley referred to the
elimination of the stamp tax, Mr. Todd,
Democrat of Michigan, asked him il he
"contissed" that they had abandoned
the idea of taxing stock gamblers on
Wall street.

the idea of taxing stock gamblers on Wall street.

"Not still," replied Mr. Dingley.

"We discovered that the sales on Wall street cand and he followed. No treent is kept. The machinery of collection would be too complex."

Mr. Cooper, Republican of Wisconsin, wanted an explanation of the net result of the change in the angar schedule.

Mr. Dingley, after a calculation, affirmed that the refiner of augar under the present Wilson haw had a differential the processor will be used to the present the present the present the present the present by the conferees. As to the bill, Mr. Dingley pointed out the difficulty resulting from the large anticipatory importations.

The bill next year, he calculated,

Wednesday—Address, Rev. T. Brown, braining from the large anticinatory importations.

The bill next year, he calculated, would raise \$225,000,000, \$75,000,000 and been lost in this year's grownnes by the importation of wool and sugar and other things, the duty on an interest the sugar and other things, the duty on and sugar and other things, the duty on and sugar and other things, the duty on and sugar and other things, the duty on an interest the sugar and other things, the duty on and sugar and other things, the duty on and sugar and other things, the duty on an interest the sugar and other things, the duty on and sugar and other points and one included pounds.

Wednesday—Address, Rev. T. Brown, and the processing processing the sugar and the process with the Alro-American Received to the sugar and the sugar and other points and one dicting as a result of the enactment of the sugar and the sugar and other points and one included process of the grown and other points and one included process of the sugar and other points and one included process of the sugar and other points and one included process of the sugar and other points and one included process of the sugar and other points and one included process of the sugar and other points and one included process of the sugar and other points and one included process of the sugar and other points and one included process. The sugar and other points and one included process of the sugar and other points and other points and other points and other points

wool.
"William E. Morrison told me so with

wool.

"William E. Morrison told me so with his own lins." replied Mr. Bailey, lading Mr. McMillin, whose lace was lawled. "Not only that, but he said you and Senator Mills voted segment some reductions in the motal senatules."

"Since the gentleman has seen fit to ittack my record are to misrepresent that it may be a seen fit to it. The motal senature of a stacking linn. "I desire to commend your action then," said he. The disclaimer being meeting the commend on a stacking linn. "I desire to commend your action then," said he. The disclaimer being meeting my Mr. McMillin but Mr. Bailey had voted in the ways and manne committee against the woolen subsetule of the present law when it was offered as a substitute for the high rates in the pending measure.

Mr. McMillin, who had twenty minutes, consumed this time in domining the sucar schedule and in replying to Mr. Bailey's remarks about his record. Any statement from any quarter that he had ever advonted a daty on wool, Mr. McMillin declared was incorrect.

[Concluded on page 4.]

THE AFRO-AMERICANS. STATE LEAGUE CONVENES IN FRESNO TODAY.

Bishops Walters and Clinton Will Be Present-Au Interesting

will convene in this city to-day at 1 o'clock in Kutner Hall.

Among them was T. B. Morton, president of the organization, who, on second of a recent accident in San Fran-

Missouri moved an adjournment until tomorrow, which was defeated by a strict party vote. The Democratic conferes then offered amendments to the report, but were met with the statement that it would merely consume time to a superior that it would merely consume time to a superior that it would merely consume time to a superior that it would merely consume time to a superior that it would merely consume time to a superior that it would merely would be released.

Shortly before noon Mr. Digley moved that the report be submitted to the two houses, This prevailed by a party vote and the meeting adjourned. There was little also during the discussion and the Democratic members of the conference contended themselves with a protest against the report and the manner of agreeing to it.

The statement of the Republican conferes made the following axplanation of the changes agreed upon by the conferes in the actual upon the conferes in the actual upon the conferes in the actual to the themselves and lumber excelling eight inches equance, is lott the varie of \$2 per thousand, as provided by the house Planed lumber is sleep placed at the house rales.

Agricultural products—A compromise hetwen the house and the senaer rates on entite is agreed to.

In general the duties proposed on agricultural products are the same as those in the act of 1890.

Oranges and lumber are raised from the house rate of three-fourth conte per pound to the cenate rate of cent.

Spirits, wines, ct.—The centar rates on epicits, whose, ste., are adopted in the act of 11 cents on the land?

pound to the center rate of 1 cent.
Spirits, wines, etc., The senate rates on epicits, wines, etc., are adopted in the unit.
Wook and woolens—The house rates on woul of 11 cents on class I and 12 cents on class 2 are shopted, and senate specifications on carpet woole sgreed with a meditication ruleing the dividing line so as to place a duty of 4 cents per pound on such woole valued at 12 cents and 7 cents on such woole valued at 12 cents and 7 cents on such woole valued at 12 cents and 7 cents on such woole valued at 12 cents and 7 cents on such woole valued at 12 cents and 7 cents on such woole valued at 18 cents are the sain the act of 1890.

Paragraph 354—The duty on woole of the lirst class which shall be imported washed shall be twice the amount of the duty which they would he subjected imported to the duty which they would he subjected in imported on woole of the lirst and second classes which shall be three times the duty to which they would be subjected if imported newsfared. The duty on woole of the third class, it imported in condition for use in carding or apinning into yarns, or which shall not contain more than 8 per cent of dirt or other foreign substinance, shall be three times the duty to which they would be otherwise subjected.

The conference restored the house rates on first and second class wools,
Paragraph 1850—On woole of the third class, the value whereof shall exceed 12 cents per pound.

The senate rate of 30 cents per decade in pint bottles, 30 cents per decade in pint to the large, the value whereof shall exceed 12 cents per pound.

The the senate rate of 24 cents.

### Even the Chinese Say So.

Political economists, authorities on stretching money, and the overage citizen know that the Cainese are cleared among the sirewickel huyers. They are what the modern dictionaries define "Foxy people." Parker Lyon has not only the endorsement of all the nationalities residing in our midet, but he also enjoys the endorsement and patronage of the money saving Chinaman. Tong Duck Yao Chew, one of the most prominent Chinesee residents of Chinatown, is quoted as asping: "Mee haspe likee Parkee Lyon. He sabee sellem velly cheapee. No tradem odder store. No can do. Parkee Lyon he beatem price. I buy im new evry thing from Lyon mon velly more cheap than Armenian man seilom secon heu goode. No likes seem han, falla huger, heap athake. Like new goode, eather im theyon sente prices Armenia want em for olde."

So it is all along the line, be you still wender how I proper? I sam withing the line, but the control of the state, by the eas. My friends say I should go to Europa instead. Wolfa my besiness is Iransendous in volume, I luniove in small profits, hence cannot athard European torre, Yours fall fighigar and entarprise.

Che freeze Mopabilean Publishing Co. J. W. SHORT, Editor and Manager.

judgment in the following language:

"The stories of the boundless was into be dug out of the frozen gravel at Olong-ke have sufficiently inflamed the imagination of people, and silvering pictures and exagerated descriptions in the nawpapers are uncalled for. There is going to be a grand rush to the upper waters of the Yukon, and along with a few locky nees there will go many what are productioned to disappointments, hardebys and death. Why would it not be well to interview a few of these miners who have gone to Alaska ones or oftener and come back empty-nanded?" We say that this is sound judgment,

We say that this is sound judgment, and it is. There are in Fresno county at the present time several men who went to Alaska to secure wealth and returned poorer than they went, and we presume that the condition is much the There are in Fresno county eame throughout the state. It might came throughout the state. It might not be a bad thing to interview some of them before one becomes boundlessly excited. To be sure, the Clandyke diggings had not been discovered when they were thure, but other mines had the Clondyka shell.

the Clondyke shell.

It is well to look before we leap, for it may happen that the other side of the chasm is a long way off. It should be remembered that Alaska is a frozen country, with one mouth of spring, two ands of other men have had their choice

Of locations.

Nevertheless it is evident that there will be a ruelt to Alaska. Talk of going is heard everywhere, and Alaskan steam. ers will depart with "standing room that a majority of them will not "strike it rich," the question of how to live will become a very orgent one with them.

No man who has less than one or two housand dollars at command should go to Clondyke, and such a one should go

the property. Now the widow would like to recover her property, etc., and she claims to have been hypmetized by like to recover her property, etc., and she claims to have been hypnatized by the gypsy. The case is of particular interest in Frence because of its striking similarity to an incident which occurred here perhaps a year sgo. The details afthe two cases are precisely the same. In each is the gypsy fortune-teller, the confiding woman, the barrowed money and the after claim of hypnotism. The hypnotic claim was somewhat doubted down here, as it was bound to be, but the recurrence of each a case at Stockton lends force to it. If it should be discovered that the fortune-telling gypsy was in each instance the same, we would not be surprised. There is something uncanny in the basinoss almost beyond a doubt.

Wern the exception of the work of the senate committee, the tariff has been irreproved at avery step taken since it left the house. The delay has been vexations, but will doubtless prove advantageous in the long run. The new stariff is now in all probability the best stacking writen prayers to listeyed.

since it left the house. The delay has been vexatious, but will doubtless prove advantegeous in the long run. The new tariff is now in all probability the heet that has ever been made, both from the protective and revenue standpoints. The free trade element in the East is kicking about the protection granted to agricultural products, but that is the highest tribute that could he paid to the bill.

Senaros Whitte opposes the annexation of the Hawkiian islands on the ground that it would introduce into this country Kanakaz, Portuguese, Japanese and Germans. Now, the senator should take a few days off and explain why he includes Germans in that list. Certainly this country has no hotter class of immigrants then the Germans. It would be better for the coal miners if Debs would attend to his social democracy and keep strictly out of their contest. He presence will only serve to wouse antagonism and engender bit terroess that will make a settlement of the trouble all the more difficult, Professional agitators as a rule are the bane of organized labor.

The more one thinks of it the more he realizes that the Japanese method of attaching witton prayers to bicycle wheels and letting the Almighthy read the time at He lesieure might be admitted in this country. We realize and letting the Almighthy read the time at He lesieure might be admitted in the sound of a "haven" time to eap our neither all years of any consent in the list of us an afford to these times; so we puil along without prayers until we get in a hole, of us an afford to tree the twenty or consent the more of the formula. It would be sell the more of a prayer in a day. Our cyclometers themselves would notify the consent of the trouble all the more difficult. Professional advantageously adopted in this country. We realize and letting the Almighthy read the testing and letting the Almighthy read the testing and letting the almighted where and the lesieure in the lesitors and letting the almighted in this country. We really adopted in this country. We really an

Tux third annual congress of the Afro-American League of this state will hold its opening session in Freezo today, and it is confidently expected that it will be the most important and suc it will be the most important and since wessful meeting of the league that has yet heen held. o'clock yesterday evening, a full board being present and President Craycroft in the chair.

aller by all policemen in June and also for the treasurer's report. The clerk read the report, and City Marshal Nov explained that Policeman Mathe on had been absent, attending his wife during her illness in San Francisco, and that no special had been appointed in Mr. Spinuey raised the question of

Mr. Spinney raised the queeton of double commissions to the treasurer. The former only treasurer took com-missions on all the money in the treas-try. The question triace, is the new treasurer cuttiled to percentage on the balance paid over? The matter was re-ferred to the city attornay. Treasurer Swett oxplained his position in the coatter.

recome the case accesses and special and prover to and water committee with full power to act. Carried.

A petition from several residents of Woodward's addition was presented. Mr. Spinney moved its reference to the fire and water committee. Carried.

The committee on the putition of the Mount Whitney Telephone and Power Company asked forther time. Mr. Gilatrap, representing the company, stated that it desired to come into Freena. This company gives a uniform rate of 25 seats for a message of three minutes anywhere on the line. They also formish telephones at \$1.50 a mount with private wires whenever desired. He also called attention to the ordinance requiring wires to be placed thirty feet from the ground and asked that this company be allowed to place its wires immediately below those erected by the Stanet campany. The committee a ranged to meet Mr. Gilstrap at 0° clock tolay at Chitenden's olice.

The petition of Decker & Knobloch for

came at No. 1119 I street. First reading.

The pellition of Decker & Knobloch for a lincouse to conduct liquor business at No. 1127 Mariposa street was read the second thus and was granted.

A pelition was received from the Reputhican party stating that said party desired to hold a primary election to be hold August 9, to nounlaste a candidate for city clork, to be voted for on September 27. It also asked the board to perform its duties under therew primary laws. On motion of Mr. Spitney the motion was granted.

The city clork then made his semi-annual report, showing the funds on had July 1, 1817, as follows: General tand, \$7,275.88; street land, \$2,319.75, eswer fund, \$2,711.40; illurary fund, \$7,147; municipal improvement fund \$2,711.47; municipal improvement fund \$2,111.40; illurary fund, \$2,711.47; municipal improvement fund \$2,111.40; 71.70.2, \$3,120.11; No. 3,

The contract was awarded to Mr. Toombs.

Blds were next opened for lots for a site for an engine house on the West side. The California Investment Co. offsred lots 10 and 11 on F street between Ferome and Maripoes attests, for \$1250, W. H. Jupols, lots 25 and 25, F. between Fresuo and Maripoes, for \$900. A. J. Marison offered lots 13 and 14, F. between Kern and Tulare, for \$604, F. and 9, black 25, for \$4050, W. T. Ross offlored lots 20 and 21, black 87, at \$400 each.

1. Gratheer offered lots 22, 23 and 24, block 27, at \$600 for the first two, \$450

block 40, for \$050.

Mr. Spinney moved the reference of the bids to the fire and water committee with power to prepare plans for building and foll power to act about the section of the

ing and full nower to act about the selection of site.
The board then passed a recolution of intention to run a 6-inch sawer from the manhole on Montarey street through black No. 130.

A resolution was next passed awarding the sewer contract to S. E. Toombs, The specifications for acrest lighting ware then read, They provide for carry-three or more are lights at intersections of streets, at least thirty feet from the ground and of at lesset 2000 candin power, And 100 or more of incandescent in the other carry-three or more are control of the service of less than the service of the service of the service of less than the service of the service of less than the service of less th

company a neir chance to bid. Hu presented a map of the light system and engested that the city be divided into two districts, one sast and one west of Jarret.

Trattes Spinney then took the floor and stated that Air. Unteels was a nice young man and was doing the best he know how, but that during his absence from Fresno he had lost track of the way things land gone and claimed that the plane had been made to conform to the former withes of the Fresno Cas and Electric Light Company.

Mr. Gutsch then state that his company does not want to work in the dark, nor net on specifications made three years ago. His company stands ready to furnish a reasonable number of lights, but does not want to be past in a position to awar to buy additional machinery. If the bid is made crant then his company and make a very low hid, and the city should have the beauth of this competition.

Mr. Spinney then pays the old competition.

Mr. Spinney then pays the old company as coring for the high prices demanded when there was no built had farnished the poles and wire for the old company and by right those were will the property of the city, spinney became very warm and stated that he was not working in the dark on this matter at present.

The specifications with maps, submitted by Mr. Gutsch, were than result the board and he stated that his company could light the entire city.

The board then adopted the old specifications for lights without amend.

Fire Marshal McDonald stated that he building was being extended from time to time contrary to the fire ordinance and urged that it be condemned.

Fire Marshal McDonald stated that in new roof and other repairs were heig made, but he could not see that it was adding to the jeopardy. After some further discussion, in which Spinney traged that the building he condemned.

## The board then took up the matter of

selecting primary election officers for primaries to be held Agest 9th, 1897, and the following were drawn from the

and the following were drawn from the best:

On motion the foregoing were declared the royaller olection officers for the primary election to be held August 9th proxing.
On motion of Trustee Spinney, J. W. Short and John Anderson were appointed library trustees by unamimous vote.
Trustee Spinney then discussed the

Short and John America, pointed library trustees by unanimous vote.

Trustee Spinney then discussed the matter of giving leave of absence to the regular paid firemen on the force and to members of the police force, and moved that the chiefs he instructed to permit no absence of any member except in case of sickness of himself of family. Carried without opposition.

Trusten Spinney moved that the city ongineer he directed to survey the city line in order to determine how much of the Parterville line of ruilroad is within the city limits in order to all the city assessor in making his assessment. Our ried. The board then adjourned.

GRAIN FARMERS HAPPY

IN WHEAT.

Short Crops Reported From All Parts of the World-Present Stock Light.

The grain intiness of this country are in excellent humor over the encourag-ing condition of the market and the ing condition of the higher prices. The number of farmers who sold early in the season are lew, and they are now egretting that they did not hold on.

regretting that they did not hold on. A grain buyer spoke as follows to a Reremarkan Faporter yesterday:

"There is some movement in wheat,
but not nearly what it might be. The
prices are good, varying from \$1.10 to
\$1.20, but most of the farmors, who
seem to be pretty well informed concerning the state of the market, are
holding out for higher prices. Barley is
moving along teadily, bringing from 70
to 80 conta."

moving along generally, singing from to 80 conts.

There is good reason for the larmer to hold on to his wheat. The stock is lower than it has been for many years past at his time of they very and crop shortsago are reported from all over the working the state of the control of of the con

gentine, one of the main courses of the world's apply, is and to have a chort cop.

In view of all this the faracre think they are justified in taking the rick of holding on for higher prices. It was reported yesterday that \$1.22 was offered for a lot of exceptionaily line wheat. Should the price go up to \$1.25 no doubt most of the growers would sell, and that may be the quotation they are waiting for. The following from Bradsreet's will interest the faracrers of this country. "The most annouracing feature of the aivancing price of wheat during the harvost easen. It will be difficult for newspapers with axes to grind to make the point this year that the advance in the price of wheat is going to the speculator and elevator ower instead of the producer. It is the American farmer who is to profit by the statistical situation of the cereal this time, and with the improvement in the material westerned to general trade throughout the country."

"If the result for an expected large harvest of and demand for Indian comprove eimilar to the conditions affecting wheat, the prospects of the planter and the farmer will indeed be inversalled; but the Indian corn crop will be subject to damage antil the middle of September. The present wheat outlook is for the continuance of declining stocks throughout the world during July, and with unfavorable reports as to foreign wheat crops, the prospect is bright for holders of wheat. But whatever the gains of the latter, nothing should now prevent the far-sighted American whost farmer from participating in the very perity."

Hon, Joseph A. Howells of Jufferson, Ohlo, brother of W. D. Howells, the noet and novelist, arrived in this city yesterday to visit his cousing, Mrs. MocCardy and Mrs. John J. Saymour. Mr. Howells is eelitor and publisher of the Arhtabula, O., Seuind.

EASY TO BE INTERESTING

The Home Team Ran Away With Them From the Start-Notes and Other Games.

A large crowd turned out Sunday to A large crows primer due to this see the ball game between the Friesco Representations and the Hessendmen of Oakland. The visiting nine had made a good showing in all of its former tournament games and it was expected that me tesin would have a hard task o win the game. That this belief was to win the game, the street of the game, which was one of the slowest and most slovenly exhibitions of baseball yet seen որս Լից հշատ մաստում.

The Hessemans are all right—hat no The way they thraw the ball about

And thesebourable are all right—ant not for baseball.

The way they throw the ball about the diamond, the way they mured, the vary way in which they stratted about the grounds brought forth the jeurs of the spectators; and there hatting, or rather their fack of batting, was found a handy subject for the "chaffiero."

Peters, the mobie catcher whose manly become and well night bursting with pride or something slee, succeeded in getting the only hit hands by the licesemans. Sanford esemed to have lost that cuntrol of the sphere for which he was noted, for the REPUBLICANS sounded his delivery from the start with a regularity and a precision that soon became monotonous.

Then the playing of the me nine was very poor. As soon as they discovered what a "cincil" they had they became carelies and played loosely, and as a result the error column of the score is considerably larger than it would have been otherwise.

The thermometer registered 90 degrees Ferenholt—at least 15 degrees less than on the previous Stundey, but notwithstanding the historiahs weather the Oakland team did not put up as good a game as the Corkers by any moans. The provious standay, but notwithstanding the historiahs weather the Oakland team did not put up as good a game as the Corkers by any moans. The therefore the most of the found in the side, and good-naturedly guying the team when it manifested an inclination to do come "rooting" an its own account.

The visitors when they appeared on the grounds set the backers of the local to thinking. They were big, bolky failows, and from their preliminary practice it looked as if the huma team had an army contract on land to be the time, but the result showed that Percherons cannot race with thorough-breds.

The rist inning brought out some fine close playing which added to the lim-

beat them, but too Perchevois cannot race with thorougu-bredo.

The first inning brought out some fine, close playing which added to the impression that it was going to be a game, but when the Reremancan got off on the second inning with six runs, they went around the dismond like they were on a merry-go-round and couldn't stop until the machine ran down. This substantially ended the game, for with three in the next inning the serve atood tan in nothing, and after that it was a clear case of day.

The visitors lost spirit and the home of the serve tame and loose. The

The visitors lost spirit and the fixam interest, and the remainder of game was very tame and loose. Heeseman fought hard to score, linely succeeded in scoring three succeeded in scoring three tone of which were sarried.

The official score is as follows:

Hertshivs. AB R HI SR PO Kenting, 2b-fi. 2 1 0 0 1 2 Wallroop, 3b 1 1 0 0 2 2 Lan ingle before the control of the control of

## KNIFED AND BEATEN

Savage Affray in Squaw Valley Sunday.

H. H. BOREN IS THE VICTIM

Assaulted by W. P. Hedrick and Son-Boren Is Not Expected

to bive.

There was an affray in Squaw Valley Sunday afternoon that is likely to result fatally for one participant. In fact, so sure was Constable Irvine that the mar laired would die that he entered a charge of murder against the aggressors, whom he brought to the juil in this city shortly before 3 o'clock yesterday after Valley rancher. The circumstances of the offsir, so far as could be learned from the arresting officer, were as fol-

It appears that there had been bad blood between the Bornes and the Hedricks, who have a small ranch about two miles from Bornes, for some time pest. What gave ries to this feeling is not exactly known, but report has it that the younger Hedrick is pretty handy with his "pickers and stealers," and the presumption is that he experimented with them on some of Borne's property. This led that Bornes and the Hedricks to tak about each other in a very unneighborly manner, and finally Borne gave it out that if the Hedricks ever put inot on his ranch again the would kick them off.

The Hedricks ever put inot on his ranch again the would kick them off.

The Hedricks heard about this, and on Suiday afternoon about 5 o'clock they went to Boren's ranch to have an explanation. Borne was just starting out to look after his hogs when his neighbors arrived at the house, and, as usual, he carried his Winchester. The Hedricks accosted Boren, and it only took a few moments for a red-hot quartel to develop.

A Mrs. Isatts, who keeps house for Borne and whose husband also works on the place, fearluse that Boren might be tempted to use his rille, took it away from him. The elder Hedrick no soomer saw that his anony was enarmed than he took advantage of his heiplessnose. He quickly drow a sharpened caseknife and pounced upon Boren, and the ground at his mercy.

It was at this point that young Hedrick interfered. Hed shark with such yigher than the own first Bette' hand and, catog it as a club, helabored Boren with terrific force upon libren, and a blow or two morn might have done for him. Mrs. Bette hand, Parsons took away the rille from the sun free hand, Parsons took away the rille from the whole affair.

After the combatants were ceparated Boren was taken into the house, the Hedrick's hand, Parsons took away the rille from the whole affair.

After the combatants were ceparated Boren was taken into the house, the Hedrick going home. Boren was therefore dispatched to braght breathen his last at any moment, Parsons was therefore disp

ware proken by the down grained down upon the rancher by young Hedrick, and the whole side was horribly bruised.

Irvine went over to the Hedrick places and pat Horen's assailants under arrest. They had little to eay and came willingly senough. The admirer also brought with him the knile and the gun with which the assault was committed. The former is an ordinary case knile, with a wooden handle. There were still some blood stains on it when he showed it to the reporter. Compatable Irvine said that when he left Sanaw Valley Boren appeared to be dying, and he therefore thought it best to charge the Hedricks with muriter.

I hast eventing Dr. Prossley of Sanger who attended libren, was telephoned to for information regarding the rancher's earth, when the helphoned to for information the rancher's event, was telephoned to for information the rancher's event would swre not said that the knife wounds were not said when very severe. He could not tell yet whether they would result fatally. There was a probability of internal injury. Constable Irvino had be pressed the opinion that Boren's spine was hort, but Dr. Prossley and this was not the case.

A reporter of the Republicax visited the Hedricks at the jail yearndny afternoon, but they declined to make any statonant. Very little is known of them here. The father, so far as is known, was never in tranch before; but the son does not bear a good reputation, according to Constable Irvins, He is easily 10 years old. The Hedricks will be taken before hat the sen does not bear a good reputation, according to Constable Irvins, He is easily 10 years old. The Hedricks will be taken before hat the sen before justice Redickell as econ as it is known how Boren's injuries have resulted.

CHINESE LOTTERY CASES. Ab Jung to Be Tried in Austin's

Court Today.

There are reversal Chinese lottery cases
pending in the justices' courts that will
soon be disposed of. In Recorder,
Clark's court Ab Tong is charged with distributing handbills giving the result of a drawing. Tong's attorney is out of tawn, but as soon as he returns the essewill be set for trial. In Justice St. John's court Ah Yoo is charged with selling a lottery ticket to O. W. Loshbough. The case against the Chinanoan is said to be a strong one. There is a demurrer pending which has to be disposed of before the trial is set.

Ah Jung is churged with the same offense by the same person in Justice Austin's court. His trial will be held this morning at 100-clock. The evidence against Jung is also said to be strong. With a juny composed of self-respecting citizens who will not permit themselves to be misted by appearons arguments a verdlet of guilty ought to be brought in if the testimony warrant it. distributing handbills giving the resul

FUN IN SELMA.

THE NOTE OF THE THRUSH IS HEARD.

Deputy Constable Delashmutt Lo cates a Hard Character and Retroats in Order.

The report comes over the wire fro

Selma that they have been having a lively time down there the last two or three days and that the constability are longing for a vacation. On Saturday two boys were o a charge of breaking into the scho

on a charge of breaking into the school house and were brought to Freeno for safe keeping. One was the son of a baker named Thrush, and Thrush, it seems, declined to bail the boy.

During the warm hours of Sunday Bransh took some cold bear on board, became housile, discussed the featibility of shooting Justice Tacker through one of the port holes of his oilles, expressed an unexpurgated epinion of the local officials, together with other acts hostile to the peace and good order of the committy.

Yesterday morning Mr. Mericleswore out a warrant for the arrest of Thrush, charging him with disturbing the sease, and Daputy Constable Delashmutt was cent own to arrest the offender. He found Thrush all right, made known his business and then the wild wood note of the Thrush was heard and Olicer Delashmutt took wing to escape being hoisted bodily by the irste Teuton, who gave it out that he rau that bake shop. The official, it is exid, gave him sample room to run it anywhere ha wished.

Thu latest reports by wire state that later in the day Officer Berry arrested Thrush and took him before fuelted Thrush and took him before fuelted Thrush and took him before fuelted these not directly engaged in the transaction.

Game Can Be Had in the Form of Reindeer, Moose and Manutain Sheep.

SAN FRANCISCO, July 19,-The Alaskan gold field and the stories brought here by the recent arrivals from the Clon-dyke continue to be an absorbing topic

dyke continue to oan asset only close of conversation throughout this city. From every quarter come fresh reports of the astoniching possibilities of the newly discovered camp, and the spirits of adventuresome fortune-seekers Excelsion, was set aglow, have now been minors, prospective increment, traders, traders, traders, and of whom are outlining phase for profitable occupation in the region of the country which is et this moment the center of the world's interest. Those whose knowledge of Alaska and of the Alaskan gold fields entitle them to speak intelligently on the subject, not only seem to share a similarity of opinion as to the

or reindeer, moses and mountain during the winter, but outside or irm of food all other supplies must sected."

this form of load as deter supplies such
simported."

SEATTER, Wash., July 19.—Hon. C. H.
Michash, governor of the northwest
territory in which is included thus far
famed Clondyke district, is in Seattle,
being caroute to Regina, the capital of
his wealth laden kingdom.

The governor, like many other raputfulness of the stories sent out as to the
richness of the stories sent out as to the
richness of the now diggings. In truth,
the covernor is an onlineisat over the
wealth producing possibilities of British
Yukon.

"I consider the British Yukon gold
field the richness ever trod by man,"

"I consider the British Yukon gold field the richest ever trod by man," Hovernor McIntosh observed this afternoon. "It is a great treasure—gold has been accumulating for hundreds of years. Indeed, the gold supply is practically inexhaustille. There are hundreds of rich rivers and creeks. Cloudyke is only one of them."
The governor estimates that the Cloudy

dyke is only one of them."

The governor estimates that the Cloudyke and its tributaries yielded over \$1,000,000 in gold last winter. Of this amount he seys \$2,000,000 and powards came out via the steamstips Portland and Excelsion. More than a million dollers in dust, he says, is now stored away in the cabins of miners along the creeks being developed.

away in the cabins of miners along the creeks being developed.
"The British Yukon yield of gold for 1887," the governor resumed, "will not be less than \$10,000,000. Of course in this, as was the case with the Caseiar and Caribac countries, it is not possible to keep a record of what is taken out, but I am convinced that I am not placing

to keep a record of what is taken out, but I am convinced that I am not placing the amount too high.

"I placed the gold and silver yield of the Rossland and Kootenai districts for 1897 at \$7.000,000 and I have semi-official information to the effect that will be very near the exact figures, all of which to my mind is ample evidence that within five years these districts will be producing more gold than either follorado, California or South Africa."

Governor McIotosh says surveyors are now at work trying to assortain the featibility of the construction of a rail-road into the Yukon. One ronte contemplates a line of steamers from Fort Wrangle up the Sitkeen river, which is open for navigation to both countries to Telegraph Greek, there to connect will a railway running to Teelin lake. From the Teelin lake terminute boats will be ron along a series of lakes and rivers to the Yukon.

BIRDS AND DISEASE.

in Authority Who Thinks Hirds Incaps ble of Carrying Contagion. Persons interested in birds have re-cently been debating the question whether these creatures are capable of ontracting diseases from human beings

contracting diseases from human beings or of transmitting disease to human beings. Expert opinion seems to be divided. On the one hand Dr. K. Ruff, sincerne if teinfudent Wolt, in a resent letter to the president of the Archimation seciety, asserts that the transmisnen of any disease from a bird to a man and vice versa is absolutely impossible. Says Dr. Ruff.

"For more than 30 years I have been completed in keeping, observing and raising exotic birds of plumage; consequently I have had occasion to deal with them when ill. Every bird that has died has been examined, and I have thus disserted thring about 30 years several immered parakeets. I have make several immered parakeets. I have make several immered parakeets. I have always kept these birds during their illness, sometimes for a considerable period, in my apartment, which is somewhat restricted in size, being composed of only six tooms for four grown persons and four children. During all this period I have not had a single case of sickness in my family, although the birds have had all possible kinds of unladies. I am also confuned in my belief by the fact that I have allowed no opportunity to pass of neking for information on the subject from the principal dealers in birds at Hamburg. Cologne, London, Liverpool, Antwerp, Amsterdam, Rutterdam, Marsiells and Ecademix whenever they had sick birds in considerable numbers. In no case was I informed that my one, selles and learning warnever her, as sick birds in considerable numbers. In no case was I informed that any one, either a member of the family or an em-

the practions metal must possess it they loope to rature with any degree of success.

In an interview today, H. J. Borling, who has visited that eaction for the last ten seasons, spoke briefly of his ideas of the Alsekan praspects and while his impressions are of a most sanguine charer, he says emphatically that in nie opinion no man should journay to the Chondyke country without at least 1000 in money and supplies.

"The season in which the mines can be worked is from May 10th to September 16th, and during that time the weather closely resembles the weather in this locality, but during the time the waster they are operated underneath the covering of a house.

"The season of living may be safely settimated at \$5 per day, and those who north must figure on that basic. There is good game to be had in the form of reinder, moses and mountain sleep during the winter, but outside of this furning food all other supplies must

Curious offerings by Venders.

A street vender said that anything that might be offered could be sold in the street. Some things sell better than others, and for some the demand is mere continuous than for others, but buyers can be found for surphing if the article is brought to their attention. A knowledge of this fact prompts the offering sometimes of curious things on things fant at first thought seven curions, that one would not expect to see offered in this way. But the fact will be recalled, if one dwells for a moment upon this subject, that there are always people to be seen standing around hothing at these movel offerings. Their novelry attracts some attention, and then

Night and Day.

"Anyway," she retorted warmly,
"you don't find women's clubs turning
night into day with their origins."
"No," he mused, "women wouldn't
turn night into day. They have toe
much regord for their complexions."
For it is a fact well known to science
that artificial light will shine over telcable fair women, where daylight erably fair women where daylight wouldn't do a thing to them.—Detroit Journal. Pen and Typewriter.

An experimental race was recently rade in a French office between a skillmade in a French office between a sam-ful type-writer and an expert pennan, the test being the number of times a phrase of eight words could be repro-duced in the minutes. The type-writer secred 87 and the pennan 23.

Ham N'Ghi, ex-king of Anam, whom Than N GHI, (Seeing a sa prisoner of the Evench are keeping as a prisoner of state at Algiers, occupies his beisure with painting and intends to send some of his pactures before long to the salou. He is also a musician and regrets that he is unable to appreciate Wagner.

### ANSON ON BASEBALL

VETERAN SAYS MODERN METHODS HAVE NOT IMPROVED THE GAME.

Were Better Than Thosa of the Pr Day- Thinks Boston Club Will Never Aberes Umpires.

Cantain Adrian C. Anson is justly en Captain Advante, Auston is prodycy-ficied to be called "the grand old man of bureball." In crite of the fact that he is 16 years claim the cranks for the past fay parts I ave been predicting his retirement from the national game, the very ren is still acting in the double the veteran is still acting in the acting capacity of nantager and first base man of the Unicago team. And he is play-ing goad ball too. No player in the country communds more respect from the thousands of patrons of baseball and his fellow contrades on the disand his ferow contrains of the mand. When Amer (alks baschall, it is of a most interesting nature, and his opinion carries weight. When asked for his views on the difference between modern methods as the hall field and those that prevailed when he manager

modern methods on the ball field and those that prevailed when he unamged the famous Chicago champions more than ten years ago, the veteran said:

"The game has not improved one bit as far as scientific play is concerned. The old Chicago tenu was capable of playing far better ball than one sees nowadays. There was even more seiscee then, and vasily more tricks were pulled off. This bit and run' system, which has been seribed to the ingenuity of the Haltiméres and Bostons, was practiced by the Chicago champions long before the other teams heard of it. The more fact that the scheme has been divided and is now widely lalked of makes many believe that it is something new. One never sees the tricks now that were played by the never to be forgulten Mick Kelly, who won many a game for us with his head work. Men like Williamsen, Barns, Pfoffer, Flint and others on that old team were in a class by themselves, and their equals will never again to seen.

"In the old days baseball was played with has and ball. Nowadays it is played chiefly with one's month. Dispredefic kicking, bad language and disty ball playing generally would online been tolerated in the big Lengan.

graceful kicking, bad language ind on-ty ball playing generally would of have been tolerated in the hig Lengua cities ton years ago. That sort of play originated in the American association and has gradually crept into the Lengual until the game is surely suffering in

consequence.

"They have always called use a skieler," but I have never willfully abased an unipire. Whenever I have presidened an impire's ruling on the fight It has always here on an alleged mising a state of the rules. There is string or a first of fudgment on the un-plie's part, and he is there to give rul-ings on plays as he sees them. When one sets seven or eight players surround

ings on plays as he sees them. When can set's seven or eight players surround an amplito nowadays and wrample over a strike out or a decision on the bases, it is simply disgusting. In a recent game at the Pulm grounds, New York, one of my own men, Everett, made a senseloss liele over one of Emelie's rulings, and I my own have blaned the unipire a bit if he had fined Everett \$100. No, I do not consider that the game has been improved at all."

"Who will win the pennant this year? The reperter asked.

"Of course you expect me to say Chicago," langined the log captain. "I've claimed that pennant every year, you know, but the Chicagos have had such a lad surf this season that I've been compelled to shift. If you want my candid quinten, however, I'll say, and beton it, that Boston will finish on top. That icam, in my estimation, is the most evenly ladineed in the League, all things considered. It is a better hitting and fielding team than Baltimere, and tho pitelbers are stronger than Hanlou's corps.

"While Robinson and Clarko of Bal-

the pitchers are stronger than Hanbou's corps.

"While Robinson and Clarke of Baltimore are good catchers, ald Ganzal and young Borgon of Boston can have my money. Tenney is a better ballpayer in every detail than Doyle, who is one of the most erratic base runners I ever raw. I see no comparison between Second Base Man Lowe of Boston and Beitz of Baltimore. The former is by far the better man. Aushort field I think Long and Jennings are about a standoff. McGraw is possibly a stronger hitter than Collins, but the latter is a much faster thind bes much. Boston has off. McGraw is possibly a stronger hitter than Collins, but the latter is a much faster third base man. Boston has the faster entitled. Give me Duffy in preference to Joe Kelley every time. Hamilton is greatly superior to Stenzel, and young Stubl, from what I hear, is a second Keeler. Handon's pitchers cannot stand the strain. Boston has a remarkable corps in Nichols, Lowis, Klobedaux, Sullivan and Stivetts."

"What is the matter with the Chicagoo?"

"We have had unfavorable weather to contend with ever-since we started. Our pitchers are not in good shape yet, and the men have not begun to hit. The other teams have played better hall against us in almost every game we have lost. As soon as hot weather sets in I believe we will do better."

Auson says be bus reduced himself himself he ponted since early spring. He is in sphendid condition for a mon of his years.—New York Sun.

veurs. - New York Sun.

### A USEFUL INVENTION.

Mr. D. Decker, long known as the was and electric light man of the Freeno Gas Company, but now proprietor of the Enterprise Restaurant and Salcon, will soon launch forth a little pocket machine, which for incurring domestic happiness can never he surpassed. When a man gots home early in the morning and tries the wonderful leat of pulling the door knot off and pushing it through the key-hole, his writching partner does not scream rother, but instead she softly asys with a trembling yet loving voice: "Ed, is that you?" The sleight-of-band work at the door knot ocease; no salver counce, for there are moments whan we cannot answer. "Ed," sle ventures, "you have been drinking. You can no longer deceive me. I placed in your packet a fittle maker that registers every drink." She pulls out the machine and sees twenty one bears recorded. Ed swears he never used that much and telephoned to take the meter out, and for several days thereafter he at his meals at the Enterprise. never used that much and referenced heresfeer he atc his meals at the Enterprise

### PASSED BY THE HOUSE

truste."

Amid a storm of theers Mr. Dingley then demanded the previous question on the adoption of the conference report. The demand was sustained by a wira-vere vote, and the vote on the adoption of the report followed by year and nayr.

Considerable excitement occurred with the theory.

and nay.

and nay.

Considerable excitement occurred wille the sole was being taken. When the speaker monumened the vote, 185 nyes, 118 noes, the Rapublianna broke into lond cheers. The house then, at 12-17 a.m., took a reters until Wednes-
